

Give your room a high-gloss and high-design finish with Polyvision's only glass collaboration tool. For corporate settings that need a lift, Gleam is an eye-catching option that stands out and

beckons good ideas. Slightly heavier than our CeramicSteel, Gleam is still easy to install—and hard to miss.

Size HxW	Weight	Thickness	Depth from Wall to Face
48" x 48"	64 lbs	0.25"	0.5"
48" x 72"	96 lbs	0.25"	0.5"
48" x 96"	128 lbs	0.25"	0.5"

*sizes are nominal

- Cleaning instructions

Glass Colors (p. 54)

toolbar

Always there when you need it, the Polyvision Toolbar is a designer accessory kit that enhances your collaboration. The patented base snugly holds dry-erase markers or chalk sticks, while the magnetic, ergonomically designed microfiber eraser settles into a docking station when not in use. Focus on the big ideas, while Polyvision Toolbar keeps track of the little things.

More Details

- Can be mounted in multiple directions to support writing space, left- and right-handed users
- Toolbar is 13.6" tall by 3.3" wide and sits close to the board at 1.6" deep
- Round Magnetic Eraser measures 3.5" in diameter, fitting nicely into any hand

Includes

- Toolbar, eraser, writing tools, extra microfiber cloths, cleaning instructions
- 4 standard markers included with gloss surfaces
- 4 chalk sticks included with chalkboard surfaces

Corporate Responsibility

Polyvision believes that sustainability is an important business practice in today's global economy. In line with this belief, we strive for continuous improvement in all areas of environmental stewardship – responsible use of raw materials and natural resources, manufacturing processes and operation of all facilities – to reduce the impact of our activities on the environment. In the end, we believe we are all in this together, working to protect and cultivate the world we live in to make more sustainable choices.

Manufacturing Excellence

All Polyvision facilities are compliant with international standards and certified for Quality, Environment, Health and Safety. Our environmental goals aim to reduce and manage our global environment footprint in the areas of VOC emission, water use, waste output and CO₂ emission.

- ISO 9001 Quality Management Systems Certification
- ISO 45001 Occupational Health & Safety Management Certification

Ensuring A Sustainable Future

In addition to safe and sustainable manufacturing processes, Polyvision holds our products to the highest standards. We are third-party certified for our CeramicSteel surface by:

- Cradle to Cradle Certified – releases no harmful chemicals into the environment, safeguards clean water, materials are safe for humans and the environment
- Indoor Air Quality Certified to SCS.EC10.3-2014 v4.0
- ISO 14001 Environmental Management Certification

Warranty Protection

Polyvision utilizes CeramicSteel, which offers one of the industry's most comprehensive warranty with lifetime surface warranty for interior applications. Panel performance is subject to the panel & substrate material warranty.

CeramicSteel Surface

Forever warranty Polyvision warrants that all porcelain-enameled surfaces and/or products made with e³™ CeramicSteel (Premium Writing Surfaces) or a³™ CeramicSteel (Collaborative Products) will retain its writing and erasing qualities and maintain its gloss variance and color consistency for the life of the building or for as long as the product is in use, whichever comes first.

Panel Construction

10 year limited warranty Polyvision warrants that our panels, under normal atmospheric conditions and when sealed from moisture, will not delaminate from the substrate or warp for a period of 10 years.
