# About Us

## **Tradition, excellence and innovation since 1914**

---

Marsh Lumber Company began in 1914 as a small family business in Dover, Ohio. With more than 100 years in business, the company has maintained family ownership and operations through the hardships of WWI and WWII, dropped and added divisions, changed names, and partnered with various corporations.

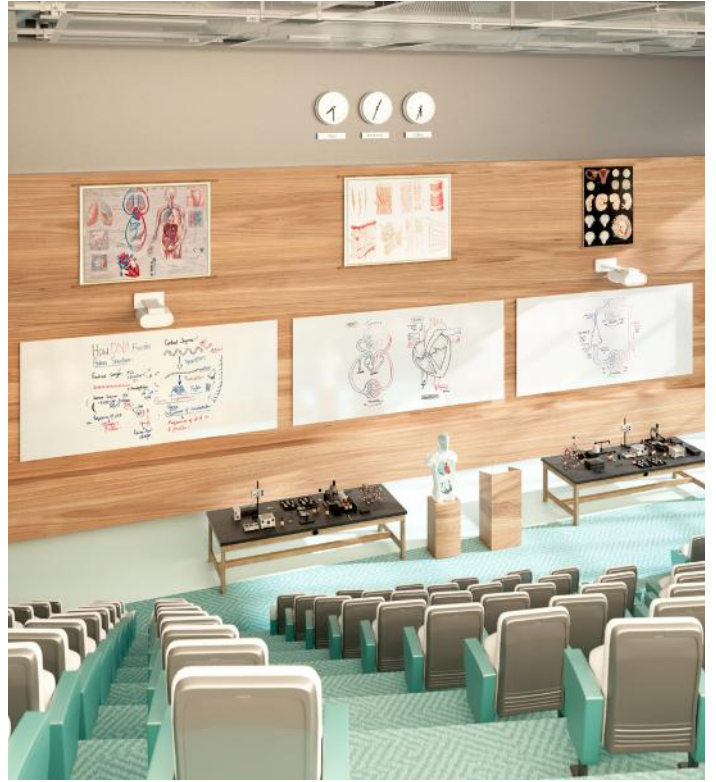

In the 1930s, Marsh entered the pre-finished wall panel market, which later became known world-wide as Marlite. In 1958, the Marsh Chalkboard Division began operation and serves as the origin of Marsh's current product line. From flooring and car decking in the early years, to today's chalkboards and visual communication products, Marsh has evolved to become one of the largest manufacturers of visual display board products in the United States.

At Marsh, we source high-quality materials to deliver best-in-class markerboards and other visual display products. Our team strives each day to exceed customers' needs and commits to continuously improving and expanding our product offering to help teachers, students and workers collaborate better each day.

# K-12

Chalkboards and whiteboards are a classic staple of education. Teachers in all over the world use boards as the primary tool for teaching math, writing, literature, history, science, and social studies. They also use it to display classroom administration: the date, the schedule for the day, class rules, reminders and upcoming due dates and events.

Beyond teacher-to-student conveyance of information, though, large writing surfaces are also critical tools for more-active learning, in which teachers invite students to stand up and do math problems with their peers.

A University of Wisconsin study found that learning by quality visual aids can improve learning up to 200 percent. It's by engaging the material on an analog tool with their brains as well as their bodies, that information is cemented more firmly in the children's minds. The surface matters.

of teachers polled think that writing on boards increases learning and nearly all believe that the writing board is an essential teaching tool.

# Markerboards + Chalkboards

## Quality Boards for Any Need

Marsh offers a wide variety of high-quality markerboard and chalkboard surfaces, sizes, and configurations to meet the needs of any school, office, or organization. From our traditional wall-mounted boards to free-standing units and Retro-Fit boards, we have the solution for you.

# Choosing the Right Markerboard Surface

Choosing a markerboard can sometimes be overwhelming. Marsh is here to help you choose the right surface to fit your needs. From e<sup>3</sup>™ CeramicSteel to Tempered glass, we source a variety of high-quality materials to deliver best-in-class markerboards.

## Classic Markerboards

- High Gloss markerboard made with e<sup>3</sup> CeramicSteel (also known as porcelain enamel)
- Endures heavy daily use and is resistant to scratches, stains, bacteria, chemicals, fire and graffiti
- Primary use mode: writing and erasing
- Use dry erase markers. Permanent markers can be erased with whiteboard cleaner
- 3 standard colors
- Available in Hygienic surface
- Easy to clean. Bleach cleanable

## Traditional Chalkboards

- Matte chalkboard surface made with e<sup>3</sup> CeramicSteel
- Endures heavy daily use and is resistant to scratches, stains, bacteria, chemicals, fire and graffiti
- Primary use mode: writing and erasing
- Dry erase for quick cleaning and wet erase for deeper cleaning
- Use chalksticks or chalk markers
- 3 standard colors
- Easy to clean. Bleach cleanable

## Projection Boards

- Matte or satin gloss e<sup>3</sup> CeramicSteel surface provides excellent writability and low glare.
- Can be used with short throw, long throw or interactive projectors
- Eases eye strain and minimizes distractions from reflections in the room
- Primary use mode: projection and writing. Ideal for spaces with excessive ambient light
- Use dry erase markers
- Dry erase for quick cleaning on satin gloss surface
- Matte surface requires wet erase
- 1 standard color
- Easy to clean. Bleach cleanable

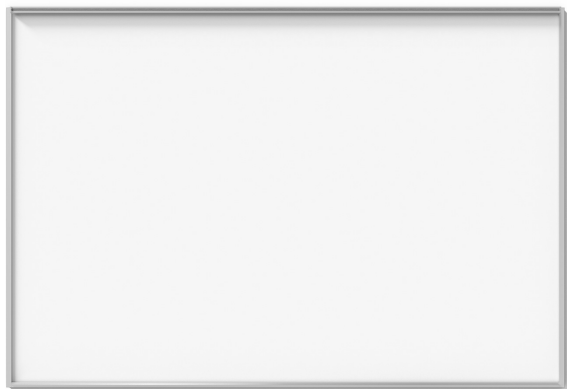

# Pro-Rite™ Markerboards

Made with CeramicSteel, Pro-Rite Markerboards are made to endure heavy use. That's why this classic product has been the preference of architects, school administrators and educational equipment suppliers for over 63 years.

Map Rail Option

# Retro-Fit Boards

This innovative board design offers a perfect solution for covering existing boards or when wanting to avoid the labor intensive alternative of adhering skins to the existing surface. Retro-Fit boards fit easily over previously installed framed boards without removing them. Installation can be done in minutes.

## Features

- Magnetic porcelain enameled steel surface
- 1" aluminum trim face
- 1/4" MDF with mylar backer
- To determine height, measure from the top of the existing board to the top of the existing tray
- To determine width, measure from the outside edge of the left side of existing board to the outside edge of the right side

# Workspace

The culture movement is redefining the physical workplace. Organizations are creating informal, authentic, inspiring workspaces where employees can feel an emotional connection. Companies are now using space to reflect their culture and the unique qualities of the people working there. In addition to looking good and feeling good, a space also needs to perform to help people do their best work.

of employees work with others to complete tasks

# Weave

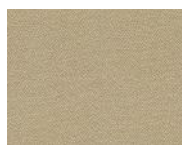

Not your ordinary tack board, Weave is wrapped with your choice of five modern fabrics for a textured feel. The frameless look nicely complements artwork, furniture and other surfaces so that your design vision doesn't miss a beat. It's offered in four sizes and looks good next to other Marsh products, making it a great pairing option. Perfect for pinning anecdotes or accolades, Weave adds a boost to any office.

## Features

# About CeramicSteel

Making proper use of vertical space with whiteboard surfaces and chalkboards can facilitate group work, reinforce linguistic development, increase engagement, foster innovation and make thinking visible. Incorporating writing surfaces into project rooms, training rooms or classrooms can allow individuals to brainstorm, communicate their thoughts and share ideas with others.

Chemical Resistant

Scratch Resistant

Bacteria Resistant

Fire Resistant

Graffiti Resistant

Stain Resistant

## Features + Benefits

- Smooth, nonporous writing surface
- Optimum erasability — no staining
- Scratch, fire and chemical resistant
- Bacteria resistant — inhibits growth or reproduction of bacteria
- Optional Hygienic additive that keeps the surface clean
- Greater color contrast
- Minimal surface/light distortion
- Enhanced visibility and optimum eye comfort
- Safe and clean: Cradle to Cradle Certified™ Silver
- Standard and premium color finishes available
- Colorfast — will never fade
- 99% recyclable
- No VOCs

# Cleaning + Care | Markerboards

## Cleaning Before First Use

1. If present, remove the protective film.
2. CLEAN: Wipe board with a clean cloth (\*) moistened with a mix of isopropyl alcohol and water (30/70) — the most effective whiteboard cleaner (\*\*).
3. RINSE: Rinse the surface with water and a clean cloth.
4. DRY: Wipe surface dry with a clean cloth.

## General Cleaning + Maintenance

1. CLEAN: Wipe board with a clean cloth (\*) moistened with:
  - a. Water: in most cases this will clean the surface just fine.
  - b. Or a mix of isopropyl alcohol and water (30/70 %v/v) — the most effective whiteboard cleaner (\*\*).
2. RINSE: Rinse the surface with water and a clean cloth.
3. DRY: Wipe surface dry with a clean cloth.

Cleaning frequency depends on the intensity with which the writing surface is being used. Daily or at the very least weekly cleaning is recommended.

## Removing Markings + Residue

1. CLEAN: Moisten a clean, dry cloth with water.
  - a. Apply a small amount of an abrasive cleanser to the cloth.
  - b. Working in small sections, clean the area using a back-and-forth motion with gentle pressure.

Note: For best results, follow the manufacturer's instructions on the label.

2. RINSE: Rinse well with clean water as soap residues on the surface will result in decreased dry erase-ability.
3. DRY: wipe dry with a clean cloth.
4. To quickly and easily remove permanent marker, write over the top of the writing with a dry-erase marker. Then, simply erase. In most cases, this will remove the marker.

\* For best results use microfiber cloth

\*\* Using a non-appropriate cleaner may result in poor dry erase-ability due to the build-up of residues from the cleaner on the surface.

# Cleaning + Care | Chalkboards

## Cleaning Before First Use

1. If present, remove the protective film.
2. Chalk the surface using the long side of the chalk.
3. Erase the board with a latex or felt eraser.
4. Keep the erasers dry and clean.
5. Clean the surface with clean, warm water.
6. Rinse well with clean water and strip/wipe the surface with a good window stripper/squeegee.
7. Allow the surface to dry before use.

## General Cleaning + Maintenance

1. Erase the board with a latex or felt eraser. Keep the erasers dry and clean them regularly.
2. Clean the surface with clean, warm water.
3. Rinse well with clean water and strip/wipe the surface with a good window stripper/squeegee. Allow the surface to dry completely before use.

Note: Boards used moderately should be cleaned two to three times a week. Boards used more intensely may require daily cleaning.

## Removing Markings + Residue

1. Clean the surface with clean, warm water. (Use 5% Extran MA 02 or phosphate-containing cleaner in water and rub well with a kitchen sponge when necessary.)
2. Rinse well with clean water and strip/wipe the surface with a good window stripper/squeegee. Allow the surface to dry completely before use.

Note: To determine if your board's surface is e<sup>3</sup> CeramicSteel, scratch a small, hidden area of the board with a sharp object, such as a key. e<sup>3</sup> surfaces resist this test, while painted surfaces are easily scratched and damaged.

## Product Warranty

### **CeramicSteel Surface: Forever warranty**

Marsh warrants that all Marsh porcelain-enameled surfaces and/or products made with e<sup>3</sup>™ CeramicSteel will retain its writing and erasing qualities and maintain its gloss variance and color consistency for the life of the building or for as long as the product is in use, whichever comes first.

### **Panel Construction and Mobile: 10 year limited warranty**

Marsh warrants that our panels, under normal atmospheric conditions and when sealed from moisture, will not delaminate from the substrate or warp for a period of 10 years. Marsh warrants that our Mobile products, when used under normal conditions, will perform as intended for a period of 10 years.

### **Accessories: 2 year limited warranty**

Marsh warrants that our accessories, including but not limited to Collaborative ToolBar and round magnetic eraser, when used under normal conditions will perform as intended for a period of 2 years. Consumables like markers and chalk sticks are not covered by the Accessories warranty.

### **Alternative Materials: Limited Warranty**

Marsh warrants that our glass products, including but not limited to glassboards and display cases, when used under normal conditions will perform as intended for a period of 5 years. Manufacturing defects are warranted for a period of 5 years. Marsh warrants that our tackable products, including but not limited to Peb-Tac, when used under normal conditions will perform as intended for a period of 2 years. Tackable products are warranted under the conditional terms of interior use only.

Should any failure to conform to this warranty become apparent, then, upon written notice from the customer, Marsh, at its option, will correct such nonconformity by repair or replacement. Correction in the manner provided above shall constitute a fulfillment of all liabilities of Marsh with respect to the quality of the CeramicSteel. The warranty is applicable only under normal usage and maintenance and does not cover defects caused by improper handling, vandalism or abuse, or arising from failure to follow Marsh's instructions and recommendations for maintenance.

The warranty is voided if any modifications are made to the products by the customer or other trades with or without Marsh's written consent or prior knowledge. The warranty does not include the cost of removal or reinstallation. This warranty is effective as of June 7, 2023, and supersedes the terms and conditions of all prior surface warranties issued to the customer by Marsh.

**This limited warranty is the sole remedy for product defects and no other express or implied warranty is provided, including but not limited to any implied warranties of merchantability or fitness for a particular purpose. Marsh shall not be liable for consequential or incidental damages arising from any product defect.**
